1. Company Introduction

NVC Engineering & Contracting (New Vision for Construction) is a Sudanese general contracting firm established in 2013 and registered with the Ministry of Justice under partnership No. 16653. The company specialises in reinforced-concrete and steel structures, residential, commercial and religious complexes, industrial facilities, pavements, infrastructure and approved maintenance works.

Operations were suspended between April 2023 and 2026 as a direct result of the conflict in Khartoum. The company is now re-mobilising, with its legal identity, technical team and core plant preserved, and with its service lines extended to cover post-conflict structural assessment, rehabilitation and reconstruction works. Work has resumed on a commercial building at Al-Huda, Sherg Al-Nil in Khartoum, and a meeting-hall fit-out was completed during 2026 for the Sudanese Mineral Resources Company.

The company also owns a compressed-brick factory, which provides a measure of self-sufficiency in building materials.

2013 Established	13 Years of Experience	+14 Permanent Staff	+100 Site Workers	+100 Projects Delivered
--	--	---	---	---

The company is actively working: a commercial building at Al-Huda — Sherg Al-Nil, Khartoum is live on site, and a completed delivery was made in 2026 for the Sudanese Mineral Resources Company (see page 04).

2. Where We Stand Today UPDATED

This page sets out the current position of the company. Site operations were suspended in April 2023 owing to the conflict in Khartoum. The company was not dissolved, and its registration, tax file and technical partnership remained in place throughout. Work resumed during 2026, with a project live on site and a completed delivery in the same year.

Item	Status	Details
Live project on site	In progress	Commercial building, Al-Huda — Sherg Al-Nil, Khartoum G+4, 480 m²/floor 998,000 USD started Feb 2023, suspended Apr 2023, work now resumed
Work delivered in 2026	Completed	Conference-hall sound system installation — Sudanese Mineral Resources Company, Khartoum — executed and handed over in 2026
Legal entity	Intact	Commercial registration No. 16653 (Ministry of Justice) and Tax ID 120015101701 — valid, never cancelled
Head office	Intact	Sudan — Khartoum — 13 / Alhara Alola, Alryad — Plot No. 30/19
Areas of operation	Ready	Khartoum State and all states of Sudan
Engineering staff	Available	Founding partners plus civil, architectural, electrical and mechanical engineers — see organisation chart, page 07
Plant & equipment	Ready	Fleet in very good condition and complete — company store, Khartoum, with part deployed at the Al-Huda site
Own production capacity	In place	Company-owned compressed-brick factory — reduces dependence on the materials market
Mobilisation time	Defined	Immediate — mobilisation starts upon contract signature and receipt of the advance payment
Supply chain	In place	Direct supply arrangements with leading agents of local steel and cement manufacturers

Staff are available, plant is ready, mobilisation is immediate, a project is live on site today and a delivery was completed this year.

3. Our Services

A. CORE CONTRACTING

1	General contracting — reinforced concrete & steel buildings
2	Residential, commercial & religious complexes
3	Industrial facilities & steel truss structures
4	Pavements & infrastructure works
5	Approved general & periodic maintenance
6	Approved sub-contractor — 3D panel systems
7	Approved sub-contractor — steel structures
8	Boundary walls, fencing & site works
9	Compressed-brick production from the company's own factory

B. RECONSTRUCTION & REHABILITATION NEW

10	Structural damage assessment & condition survey
11	Repair & strengthening of conflict-damaged structures
12	Rehabilitation of schools, clinics & public facilities
13	Civil works for water & sanitation (WASH) projects
14	Construction & rehabilitation of offices, compounds & warehouses
15	Labour-intensive works (cash-for-work) under donor programmes

4. Why NVC — Strengths

Continuous field experience since 2013

Across residential, commercial, religious, industrial and infrastructure works.

A track record evidenced by third parties

Completion certificates issued by independent consultants and by public bodies.

Company-owned formwork & scaffolding fleet

Shortens mobilisation and protects the programme from hire-market shortages.

Company-owned compressed-brick factory

Self-supply of a core material at a time when supply is the main constraint in the market.

Multi-disciplinary in-house engineering staff

Civil, architectural, electrical and mechanical engineers on the company's permanent staff.

Contractual duration honoured and certified

E.g. Al-Rodwan Islamic Complex, 19 months, certified by the Consultant.

Capability in specialised work

Domes, steel structures and piled foundations delivered on completed projects.

A clean safety record

No lost-time injuries recorded from 2013 to the date of this edition.

A real precedent in bank guarantees

Guarantees previously issued through Bank of Khartoum for a project valued at 1,066,666 USD.

Accounts in both SDG and USD

Direct settlement capability for internationally funded contracts.

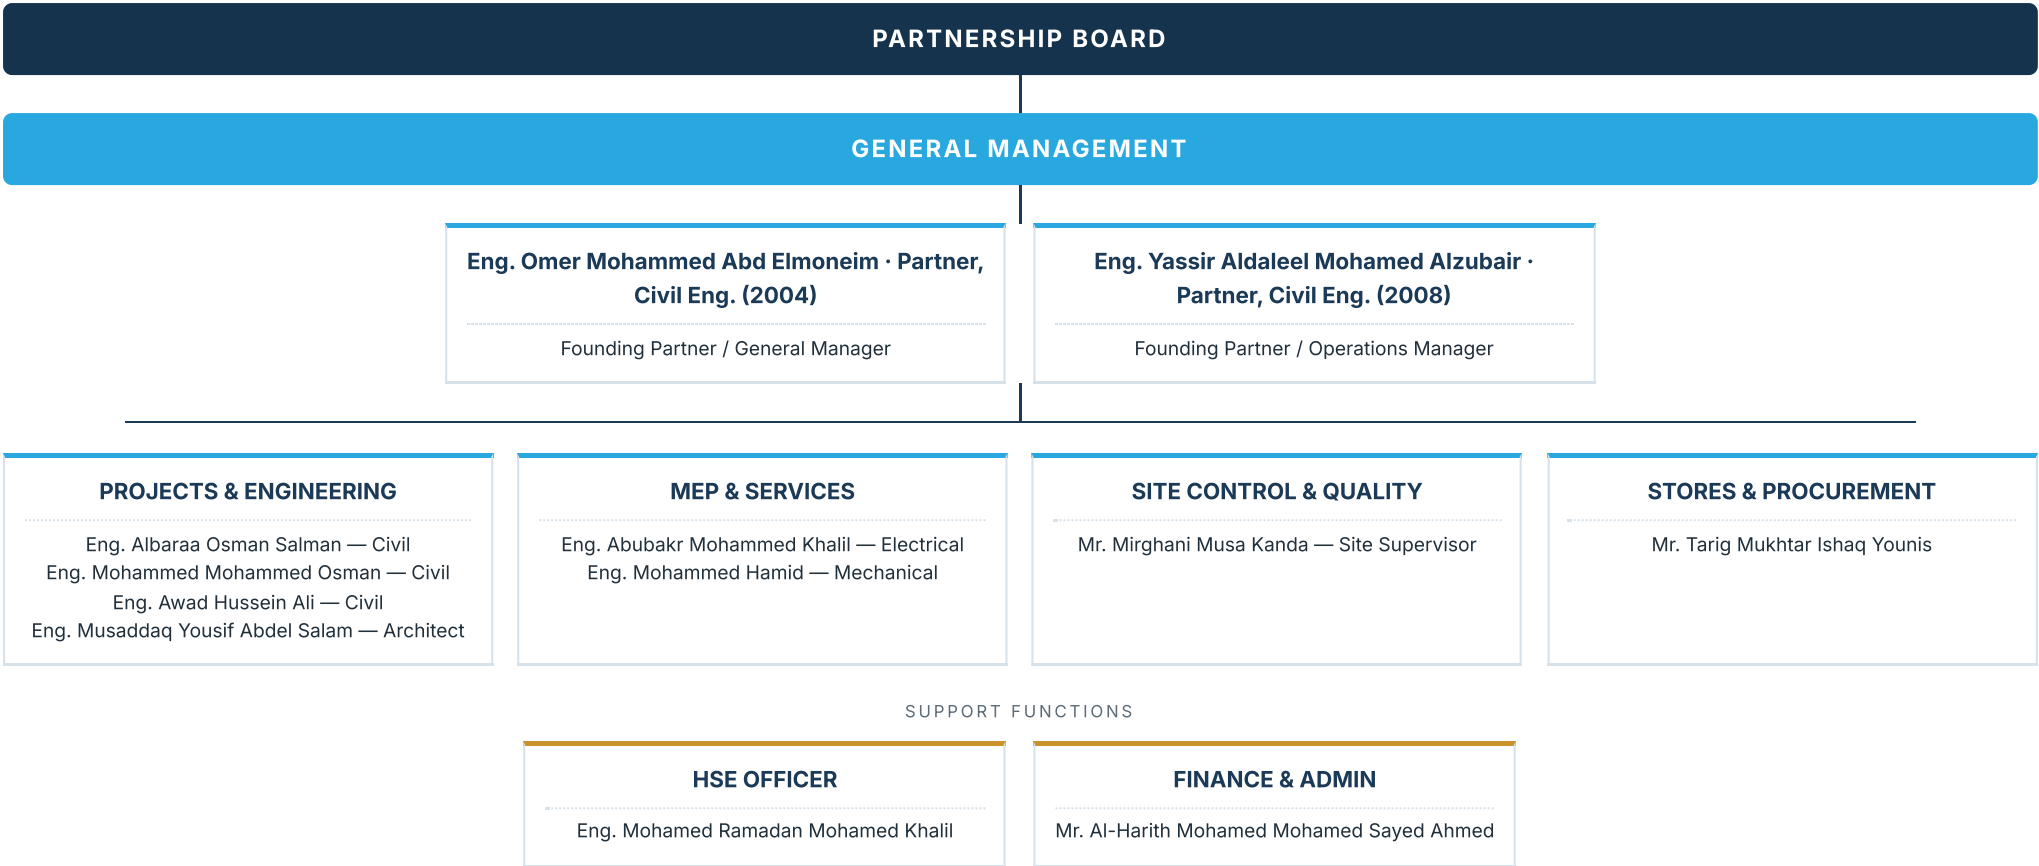

Registered with the regulating bodies

Engineering Contractors Organising Council and the Sudanese Contractors Association.

Full transparency about the suspension

This profile states the 2023–2026 suspension and the current position as they stand (page 04).

5. Organisation Structure

The structure is approved by management. The HSE officer reports directly to General Management and holds the authority to stop any unsafe work — a core requirement in international organisation and donor qualification.

6. Key Personnel

#	Name	Position	Specialisation	Graduated	Experience
1	Eng. Omer Mohammed Abd Elmoneim	Founding Partner / General Manager	Civil Eng.	2004	22
2	Eng. Yassir Aldaleel Mohamed Alzubair	Founding Partner / Operations Manager	Civil Eng.	2008	18
3	Eng. Albaraa Osman Salman	Projects Manager	Civil Eng.	2009	17
4	Eng. Mohammed Mohammed Osman	Project Manager	Civil Eng.	2008	18
5	Eng. Awad Hussein Ali	Senior Site Engineer	Civil Eng.	2004	22
6	Eng. Abubakr Mohammed Khalil	Electrical Engineer	Electrical Eng.	2004	22
7	Eng. Mohammed Hamid	Mechanical Engineer	Mechanical Eng.	2006	20
8	Eng. Mohamed Ramadan Mohamed Khalil	HSE Officer	Electromechanical Eng.	2009	17
9	Eng. Musaddaq Yousif Abdel Salam	Architect	Architectural Eng.	2011	15
10	Mr. Mirghani Musa Kanda	Site Supervisor	Site Supervision	2003	23
11	Mr. Tarig Mukhtar Ishaq Younis	Stores & Procurement Manager	Stores & Procurement	1992	34
12	Mr. Al-Harith Mohamed Mohamed Sayed Ahmed	Finance & Administration Manager	Accounting	2017	9

Years of experience are counted from the year of graduation to 2026. The HSE officer, Eng. Mohamed Ramadan Mohamed Khalil, holds civil-defence training (basic and advanced) and site-hazard training.

7. HSE Policy

NVC Engineering & Contracting is committed to every worker, engineer and visitor leaving site unharmed at the end of each day. Safety is treated as a precondition for starting work. No output and no cost saving is accepted at the expense of the safety of people, of the structure, or of the surrounding environment.

OUR COMMITMENTS

- Compliance with applicable Sudanese occupational safety and health law and with the safety requirements set out in client and donor contracts.
- Personal protective equipment (helmet, safety boots, gloves, harness for work at height) supplied to every worker without exception and at the company's cost.
- A written risk assessment prepared for every project before commencement and updated whenever the nature of the work changes.
- A short daily safety briefing (toolbox talk) held before work starts and recorded in the site log.
- Excavations, openings and scaffolds secured; no work at height without proper fixing and a safe means of access.
- A first-aid kit, a trained first-aider and a known medical evacuation route provided at every site.
- Employment of anyone under eighteen is prohibited, as is working under the influence of any substance.
- Construction and hazardous waste segregated and disposed of through approved contractors; discharge into watercourses is prohibited.

ORGANISATION & PERFORMANCE

- Company HSE officer: **Eng. Mohamed Ramadan Mohamed Khalil** — electromechanical engineer with civil-defence (basic and advanced) and site-hazard training — reports directly to General Management and is empowered to stop any unsafe work immediately.
- Every new worker receives a safety induction before entering site for the first time.
- Any incident or near miss is reported within 24 hours, investigated, and closed out with a documented corrective action.
- Performance is measured: hours worked without a lost-time injury (LTI), PPE compliance rate, and number of inspections carried out.
- The same safety obligations apply to sub-contractors and suppliers on site as to the company's own workforce.
- This policy is reviewed annually and for every project of a special nature.

Incident record to the date of this edition
Zero — no lost-time injuries recorded since 2013

General Manager — NVC Engineering & Contracting

8. Quality Policy & Delivery Method

QUALITY POLICY

- Works executed strictly to the approved drawings and specifications; any change is made only under a written variation order.
- Materials approved before delivery through samples and conformity documents (Material Approval Request).
- Concrete cube tests and reinforcement checks for every pour, with results retained in the project file.
- An inspection request submitted to the Consultant before every stage that will be covered: foundations, reinforcement, pouring.
- A complete project file handed over at completion: as-built drawings, material certificates, test results and warranties.
- The Consultant's snag list cleared before final handover.

DELIVERY METHOD

- 1 — Study of documents, site visit, and identification of risks and constraints before pricing.
- 2 — A detailed programme, resource plan and cash-flow forecast for each project.
- 3 — Site mobilisation: hoarding, offices and stores, water and power, project signboard.
- 4 — Phased execution, with inspection and approval of each stage before moving to the next.
- 5 — A weekly progress report with photographs and percentage completion, measured against the approved programme.
- 6 — Preliminary handover, then the maintenance and defects liability period, then final handover.

DEFECTS LIABILITY & WARRANTY

NVC provides a defects liability period on all executed works, counted from the date of preliminary handover, during which any defect attributable to workmanship or to materials supplied by the company is rectified at the company's own cost.

Defects liability period adopted by the company: **12 months from the date of preliminary handover**, or as stipulated in the contract.

9. Equipment & Tools

Equipment	Unit	Qty	Ownership	Condition & Location
Slab formwork system	m ²	3,000	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Steel scaffolding	m ²	1,500	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Beam formwork	m.l.	600	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Wall formwork	m ²	500	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Column formwork	No.	50	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Concrete mixers	No.	3	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Concrete vibrators	No.	3	Owned	Serviceable, very good condition · company store, Khartoum, part at the Al-Huda site
Plate compactors	No.	3	Owned	Serviceable, very good condition · company store, Khartoum
Survey instruments (total station & levels)	No.	3	Owned	Serviceable, very good condition · company store, Khartoum
Small diesel crane	No.	2	Owned	Serviceable, very good condition · company store, Khartoum
Site offices & stores	No.	2	Owned	Serviceable, very good condition · company store, Khartoum
Heavy plant — excavators, loaders, trucks, concrete pumps	No.	—	Hired	Provided through framework hire agreements with approved partners, per project requirement
Compressed-brick factory	—	1	Owned	In-house materials production capacity — reduces dependence on the market

A full inventory was carried out after the suspension: equipment is complete, with no missing items and none requiring replacement. Owned plant and contractually hired machinery are both listed here so that the statement of capacity is complete.

10. Track Record Summary UPDATED

Part 1 of 2. Projects are listed in descending order of contract value. Every figure shown is a contracted value, and certified entries are marked in the status column.

#	Project	Location	Client — Consultant	Year	Value	Status
1	Commercial building — Al-Huda, Sherg Al-Nil	Khartoum	Mr. Awad Elkarim Abdel Sadiq	2026 — 2023 مستأنف	998,000 USD	In progress

24 Major projects listed	1 Live project on site	7.82M Total works delivered (USD)	1.07M Largest single contract (USD)	4 Certified completions
------------------------------------	----------------------------------	---	---	-----------------------------------

CONTRACT HALTED BY THE CONFLICT — NOT COUNTED IN THE TWENTY-FOUR

Al-Badrain Mills — Industrial Area, Khartoum North | **contract value 465,000 USD** | 50% executed, about 232,500 USD. The truck weighbridge was completed and handed over; the new silo foundations stopped in April 2023 and were not resumed.

The table lists completed medium and large projects documented with contract values, totalling 6,589,866 USD. Maintenance and minor works of approximately one million USD, together with the executed portion of the Al-Badrain Mills contract above, bring total works delivered to about 7.82 million USD.

11. Maintenance & Minor Works NEW

Alongside its major contracts NVC has delivered a large number of maintenance and small-scale works for private owners, companies and institutions. A representative selection is listed below. Contract values and dates for these works are available on request.

#	Work	Location	Description
1	Al-Graief West maintenance	Khartoum	General maintenance works executed under a signed contract
2	Al-Mamoura maintenance	Khartoum	General maintenance with technical reports and quantity take-off
3	Roof maintenance — Dr. Hamza Osman	Khartoum — Garden City	Roof treatment and waterproofing — executed and finally settled
4	Dar Al-Himaya showroom — Kober	Khartoum North	Finishing and maintenance works — executed and settled
5	Al-Taif project — 60th Street	Khartoum	Construction works
6	Lime site — Haj Yousif	Khartoum North	Works at an industrial site
7	Conference-hall sound system installation	Khartoum	Sudanese Mineral Resources Company — delivered in 2026

These works are documented at the company by contracts, accepted quotations, final settlements, or technical reports and site photographs; supporting documents are provided on request.

12. Selected Projects — Most Recent

LIVE ON SITE

Commercial Building — Al-Huda, Sherg Al-Nil, Khartoum

USD 998,000

CONTRACT VALUE

Owner	Mr. Awad Elkarim Abdel Sadiq
Location	Khartoum — Sherg Al-Nil — Al-Huda, block 2
Description	Commercial building: ground + 4 floors
Built area	480 m ² per floor — 2,400 m ² total
Commenced	February 2023
Suspended	April 2023 — due to the conflict
Executed to date of suspension	Ground-floor concrete structure and start of masonry
Current status	Work resumed — in progress

This project is the practical evidence that the company can execute today — not merely that it intends to return.

COMPLETED

Commercial Building — Omak St., Burri, Khartoum

USD 750,000

TOTAL COST

Owner	Mr. Abdel Azim Abdel Sadiq
Location	Khartoum — Burri — Omak Street
Description	Commercial building: basement + 5 floors
Built area	300 m ² per floor — 1,800 m ² total
Commenced	August 2021
Completed	March 2022
Duration	8 months — delivered on time

The most recent project completed before the suspension — a basement and five floors in eight months.

12. Selected Projects — Al-Huda (Live) NEW

Commercial Building — Al-Huda, Sherg Al-Nil, Khartoum

Mr. Awad Elkarim Abdel Sadiq | 998,000 USD | G+4, 480 m²/floor | started Feb 2023 — resumed 2026

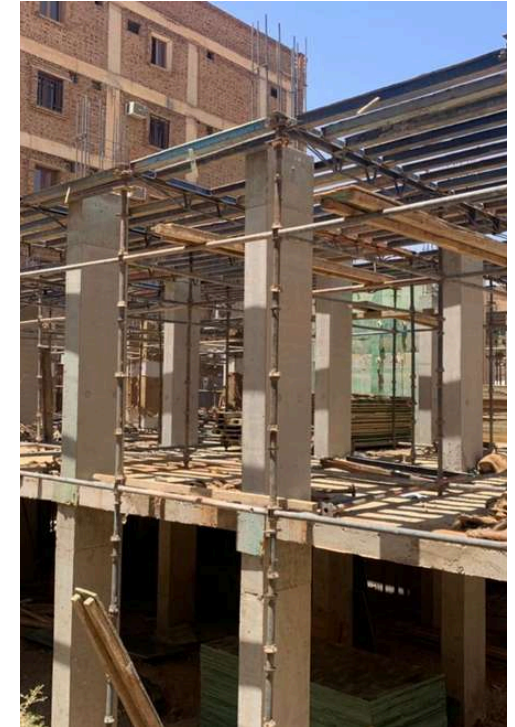

Excavation & foundation works

Foundation reinforcement

Column formwork & concrete pouring

Concrete & steel structure — current status

12. Selected Projects — Al-Badrain Mills NEW

Silo & equipment foundations and truck weighbridge — Al-Badrain Mills

Al-Badrain Mills — Industrial Area, Khartoum North | contract 465,000 USD | 50% executed, about 232,500 USD | started January 2023 — weighbridge completed and handed over, silo foundations halted since April 2023

Weighbridge pit and concrete foundations

Weighbridge pit reinforcement before pouring

Circular silo base reinforcement

Circular formwork ready to pour — halted April 2023

12. Selected Projects — Omak Street NEW

Commercial Building — Omak St., Burri, Khartoum

Mr. Abdel Azim Abdel Sadiq | 750,000 USD | basement + 5 floors, 300 m²/floor | Aug 2021 — Mar 2022 (8 months)

16. Financial & Contractual Capacity UPDATED

FINANCIAL STANDING

Banks	Bank of Khartoum — Al-Mashtal branch · Bank of Qatar (SDG & USD) · Faisal Islamic Bank
Currencies	SDG and USD — a USD account is available for internationally funded contracts
Account numbers	Provided with the bank letter on request
Financial capability letter	Issued by the bank on request
Legal auditor	Under appointment
Audited final accounts	In preparation, following the auditor's appointment
Documented completed works	6,589,866 USD, being the projects listed in the track record
Maintenance and minor works not itemised	About 1.0 million USD of maintenance and small-scale works delivered for private owners, companies and institutions
Executed portion of a contract halted by the conflict	About 232,500 USD, being 50% of the 465,000 USD Al-Badrain Mills contract
Total works delivered	About 7.82 million USD over the active years 2013–2023
Average annual turnover	About 780,000 USD across the ten active years
Owned fixed assets	Formwork, scaffolding and site plant · a compressed-brick factory

CONTRACTUAL CAPACITY

Single-bid ceiling	1,600,000 USD
Concurrent projects	3 large projects · or 5 medium · plus a larger number of small works
Bid bond	Available — with a real precedent through Bank of Khartoum
Performance bond	Available — typically 10% of the contract value
Advance payment guarantee	Available
Bank guarantee precedent	Guarantees were previously issued through Bank of Khartoum for the Al-Rodwan Islamic Complex, valued at 1,066,666 USD
Largest contract executed	1,066,666 USD — Al-Rodwan Islamic Complex
Mobilisation time	Immediate upon contract signature and receipt of the advance payment

COMPLIANCE DECLARATIONS

Never debarred or suspended by any client or funding body	No pending contractual disputes or litigation	The company and its partners are not on any sanctions list
Commitment against child labour and forced labour	Commitment to PSEA standards on all sites	Zero-tolerance policy on corruption and bribery

These declarations are required verbatim in supplier qualification forms used by international organisations. They are reviewed by management and approved under the General Manager's signature before issue — and no statement is included that the company has not verified.
